Features & Specifications

| | |
|---------------------------------------|---|
| Body | <ul style="list-style-type: none"> Durable airtight aluminum body with etched white polycarbonate diffuser lens for low glare |
| LED Characteristics | <ul style="list-style-type: none"> 4" 750LM 9W+3W, 6" 1000LM 12W+3W, CRI80, Flicker free |
| Down light Mode | <ul style="list-style-type: none"> Our slim recessed light in down light mode offers you the option of 2700K, 3000K, 3500K, 4000K, 5000K, color temperature you can choose before install into ceiling |
| Night light Mode | <ul style="list-style-type: none"> 4 inch 6 inch led recessed light in night light mode is 2200K, 2200K amber for very soft illumination and added ambiance. It also can provide no-glare lighting when you wake up at night which is very convenient. |
| Synchronization Reset Function | <ul style="list-style-type: none"> All of our led recessed lighting with night light have synchronization reset function, every time when you turn on the down light, it will always been down light mode. Sometimes the lights get out of sync after installation. Please after turning off the light for one seconds, turn on again, then the synchronization will be done |
| Trustworthiness | <ul style="list-style-type: none"> This canless LED recessed light is IC rated, ETL certified and wire terminal is UL-certified. It is permitted to be in contact with insulations in ceilings, meaning the junction box is thermally protected. |
| Benefits | <ul style="list-style-type: none"> 5-Year Warranty! The LED recessed lighting with Night Light is certified by ETL ES of a high standard. |
| Lifespan | <ul style="list-style-type: none"> 50000 hours at 70% light output. |
| Environment | <ul style="list-style-type: none"> IP44, Suitable for damp locations |

Dimensions & Weights

| Model | P02104-NT-9W | P02106-NL-12W |
|------------------|---------------|---------------|
| Diameter in.(mm) | 4 3/4"(125mm) | 6 7/8"(175mm) |
| Height in. (mm) | 1"(20mm) | 1"(20mm) |
| Net weight (KGS) | 0.35 | 0.526 |

Product Details

This product comes with dual feature that allows you to select between downlight mode and nightlight mode.

Downlight Mode provides a selection of five color temperatures.

Nightlight Mode provides low light output at a soft color temperature (Blue Light).

NOTICE: The toggle switch is located on the power supply box.

Downlight Mode - By Dip Switch

Select certain color temperature (2700K/3000K/3500K/4000K/5000K) on dip switch, then the light will be that color. Wall switch only has ON/OFF function under this situation.

Nightlight Mode - By Wall Switch

- Toggle the wall switch to power on the light.
- At initial light up, the product is set to downlight mode.
- To transition to nightlight mode, toggle the wall switch off and back on within 1 seconds
- To transition back to downlight mode, toggle the wall switch off and back on within 1 seconds

Compatible Dimmers

| Brand | Model |
|---------|--|
| LUTRON | DVCL-153p-WH, DVSCCL-153P-ES, DVCL-253P-ES, DVCL-253p-wh, PD-6WCL, CASETA, S-600P-WH, SELV-300P-IV, AYCL-253p-wh, MACL-153M-WH, DVWCL-153PH-WH, STCL-153p, CT-600P |
| LEVITON | DW6HD, IPL06-10Z, DSM10-1LZ, 6633, TSL06-1LW, 667H, 6674, 6615-POW, 6681-W |
| Cooper | SALO6P-W-K-L, DAL06P-C2-K-L |

Dimming range : 10%-100%

This table shows dimmers that have been tested and have demonstrated proper operation under normal conditions. Each installation being unique, various factors such as load, common neutrals or other electrical products on the circuit can, in certain instances, cause variance in system performance.

Read and comply to the dimmer installation instructions. Some dimmers may require more than one product for stable operation.

recommends to use dimmers designed to work with LED products. Older dimmers designed for incandescent products may cause erratic operation.
